

# Shaurya Sharma

Phone: (+91) 9339492683   Email: shauryasha090@gmail.com   LinkedIn: linkedin.com/in/shaurya-afk   GitHub: github.com/shaurya-afk

## Education

**Kalinga Institute of Industrial Technology**, Bhubaneswar, India  
Bachelor of Technology in Computer Science and Engineering (Final Year)   September 2022 - June 2026  
*Relevant Coursework: Data Structures, Algorithms, Operating Systems, Computer Networking, Distributed Systems*

## Core Competencies

- Backend development with RESTful APIs, microservices, and distributed systems
- Database design, optimization, and integration (SQL)
- Scalable architecture, messaging systems, and real-time data processing
- Software design patterns, SDLC, Agile practices, test-driven development

## Technical Skills

- **Programming Languages:** Python, Java, Kotlin, C++, SQL
- **Frameworks & Libraries:** FastAPI, Spring Boot, React.js, JPA Data, Prisma, Apache Kafka
- **Databases:** PostgreSQL, MySQL, Redis, DynamoDB
- **Cloud & Deployment:** AWS (ECS, S3, RDS, DynamoDB), Docker, Vercel
- **Tools & Development Practices:** Git, Maven, Gradle, Agile methodologies, TDD, OAuth2, JWT, REST APIs

## Experience

**VIAI Beauty** – Full-Stack Developer Intern   October 2025 – Present  
*Remote*

- Contributing to Lens, the company's core e-commerce analytics product, by developing automation for the customer review system.
- Designing and implementing backend services using Python (FastAPI) to manage and streamline review workflows.
- Integrating with the Shopify API to fetch, process, and analyze customer feedback data at scale.
- Utilizing AWS DynamoDB for efficient data storage and retrieval, and S3 for secure file and asset management.
- Collaborating cross-functionally with frontend and product teams to ensure smooth API integration and deployment pipelines.

## Projects

**SwiftCart – Mobile E-Commerce Platform with Real-time Processing** (GitHub)   December 2024 – January 2025  
*Kotlin, Spring Boot, Docker, Git, REST APIs, AWS ECS, PostgreSQL, Android-SDK*

- Developed an Android e-commerce app using Jetpack Compose for a responsive UI, enabling seamless product browsing and purchasing.
- Integrated Retrofit and Room for API connectivity and offline storage, managing user data and cart functionality.
- Built a Spring Boot (Kotlin) backend with Docker and Docker Compose for scalable microservices.
- Deployed on AWS ECS with S3 and RDS (PostgreSQL) for secure storage, efficient database management, and high availability.

**NotifyX – Scalable Notification Middleware** (GitHub)   April 2025 – June 2025  
*Java, Spring Boot, Kafka, Redis, PostgreSQL, React.js, Event-driven Architecture, REST APIs*

- Designed and deployed a high-throughput middleware capable of handling 50K+ events/min with real-time delivery and sub-second latency.
- Implemented distributed producer-consumer architecture with Kafka and Redis, enabling fault-tolerance, horizontal scalability, and reliable traffic handling.
- Built a Next.js frontend for seamless user experience, allowing intuitive monitoring, integration management, and system insights.

*Java, Spring Boot, PostgreSQL, REST APIs, Clerk, React.js, Vercel Deployment*

- Developed and deployed backend REST APIs with secure authentication and role-based workflows.
- Optimized SQL queries and schema design to improve performance for high-volume user data.
- Collaborated with frontend engineers, ensuring seamless cross-team integration and product delivery.

## Certifications & Achievements

---

- **Spring Boot Course: Certified Course for Essential Skills** — Scaler Topics, Aug 2025
- **Generative AI: Introduction and Applications** — IBM via Coursera, Aug 2025
- **Agile Project Management Certification** (HPE, 2024) - Applied collaborative development methodologies in cross-functional teams
